

EIOPA Occupational Pensions Stakeholder Group

Jerry Moriarty

I have almost 35 years experience in working in occupational pensions.

I commenced employment with Irish Life in Dublin in 1989. My role there was in the preparation of documentation for pension schemes including policy documents, legal deeds and information booklets.

I moved to the UK in 1994 to work with Sun Life Financial of Canada. My initial role was similar but I then moved to the Pensions Mis-selling Review. My role was to compensate people who had been incorrectly advised to opt-out of or transfer benefits from occupational pension schemes to personal pensions.

I moved back to Ireland in 2001 and was appointed Head of Compliance and Investigation at the Irish pensions regulator (now the Pensions Authority).

In 2007 I joined the IAPF as Director of Policy and have been CEO since 2012. The IAPF is the representative body for pension funds in Ireland.

I joined the board of PensionsEurope in 2012 and was elected Chairperson in 2023.

I am a member of the current OPSG.

I frequently represent the IAPF as a speaker at conference and in the media. I also have a Certificate in DC Pension Scheme Trusteeship.
