

EIOPA Occupational Pensions Stakeholder Group

Stephanos Hadjistyllis

Stephanos is a Senior Actuary at the Actuarial Association of Europe.

He is a UK qualified actuary, having qualified as a Fellow of the Institute and Faculty of Actuaries (FIA) during the start of his career in London. He is also a Chartered Enterprise Risk Actuary (CERA) and a Fellow of the Cyprus Association of Actuaries (FCAA).

In addition to his professional designations, Stephanos holds a BSc (Hons) in Mathematics with Statistics from the University of Nottingham and a Masters degree in Actuarial Science from Bayes Business School, both achieved with distinction.

With over 12 years of professional experience, Stephanos has specialised in actuarial valuations for defined benefit pension funds as well as investment consulting for defined contribution plans in Cyprus, Greece, and the UK. His consulting experience includes strategic investment advice to institutional clients, helping design their investment strategies, selecting asset managers, and monitoring the investment performance and risk exposures of investment portfolios. His expertise further extends to supporting pension schemes in meeting the demands of pan-European EIOPA asset-liability stress tests.

Formerly the Chairman of the Board of Directors of the Cyprus Association of Actuaries, he has supported the development of the actuarial profession and the pensions industry in his home country. He has also served as Actuarial Function Holder and Risk Function Holder at several pension schemes and has offered his support as an expert witness in highprofile litigation cases relating to pension disputes.
