

EIOPA Occupational Pensions Stakeholder Group

Antonello Motroni

My organisation Assoeuropea was established to represent Italian pension funds at EU level. Assoeuropea members represent more than 100 occupational pension schemes for about 8 million people and €170 bn in assets managed for future pension payments. Assoeuropea has also around 70 supporting professional companies which are various service providers and stakeholders working with pension funds.

Assoeuropea and its members organize meetings to update pension funds on the evolution of the EU regulatory framework and to strike a common position in case of public consultations. Assoeuropea contributes to the EU debate on supplementary pensions participating in public consultations, organizing events and through its membership to AEIP and PensionsEurope.

I graduated in Economics and Business Studies at Tuscia University and then got a master's degree in Economics at the School of Economics, the University of Rome Tor Vergata. I have been working for Mefop since 2006, Department of Economy and Finance. I chair the Working Group on EU policy issues and I am in charge of Statistical Services feeded by the database Previ|DATA which collects the supervisory reporting. I represented Mefop in the Working Groups set up by Covip to define the supervisory reporting for pension funds and 1st pillar pension schemes of freelance professionals.

PreviDATA feeds Mefop Publication series, shedding light on the various profiles of the pension funds.

I coordinate the Mefop-Ipsos survey on pensions since 2012. It is submitted to the Italian population; topics like trust, family ties and savings behaviors, knowledge (perceived vs. real), degree of satisfaction, investments, future behaviors are surveyed. I also coordinate the yearly surveys on alternative investments and on sustainable investments. Findings are published in the Mefop Publication series.

I am in the faculty of the Mefop-LUISS University Master in Economy, Finance and Governance of Institutional Investors and I lecture on courses to get fit and proper requirements for IORP board members. My courses focus on the following topics: finance, sustainable finance, digital finance, IORP 2, risk management, operational resilience.

Co-author of the following Working Papers: Family Ties and Pandemics: Evidence from Covid-19, VOXeu-CEPR, February 2021; How Family Ties Affect Trust, Tax Morale and Underground Economy, Journal of Economic Behavior and Organization, Vol. 174, June 2020 (235-252); Pension funds and IORP 2: Evidences from Mefop survey (WP Mefop n.48); The Impact of Financial Crisis on Savings Decisions: Evidence From Italian PFs, Working Paper Mefop n.41; (presented at 72nd Annual Conference of the International Institute of Public Finance, 9-11 August 2016).
