

## EIOPA Insurance and Reinsurance Stakeholder Group

### Claudia Donzelmann

I have been the Global Head of Regulatory and Political Affairs at the Allianz Group's headquarters in Munich, Germany since 2019. Together with my global team, I work at the intersection of politics, regulation, supervision and business reality.

I joined Allianz in 2006 and have since held various positions at headquarters level, including Head of Reporting and Planning in Group Audit (2006-08), Head of Corporate Citizenship in Group Corporate Responsibility (2008-12), Chief of Staff in the Executive Office USA (2012-14), Head of Supervisory Oversight in Group Regulatory and Public Affairs (2015-16) and Head of the Group CFO Office (2016-18). These roles equipped me with a profound working knowledge of the European and global insurance industry and its operational and regulatory environment.

I started my career in 1991 with Dresdner Bank in Bremen and moved to Frankfurt/Main in 2000. The knowledge I built in the banking industry provides me with a unique perspective on operational and regulatory aspects that are relevant for the entire financial services industry.

I am a bank clerk by training and hold a Diploma in Banking from Frankfurt School of Finance & Management as well as an M.B.A. from ESMT Berlin.
