

EIOPA Occupational Pensions Stakeholder Group

Dijana Bojčeta Markoja

I am Managing Director of Association of Pension Funds and Pension Insurance Companies (UMFO). Before joining UMFO in 2014 I worked 15 years in Erste Bank as Marketing and Communication manager and as Board member at Erste Card processor. Also I worked in Altus IT (nowadays Digital Realty) where I was co-founder. I have degree in Political science - journalism, MA in Economic studies, and MA candidate at communication studies, as well I completed Executive educational program at IEDC Bled. Regarding membership in other institutions, I am the president of financial services association at Croatian employers association.

I have been recently appointed as a member of the private Pension Expert Group at the OECD.

There are three main areas of interest in the Occupational Pension Stakeholder Group:

- Addressing innovation in financial literacy projects that might help better understanding of Pension Funds and how to boost confidence in pension funds.
- Relationship among sponsors, members, and trade unions
- Legislative regarding occupational pension funds

I hope that with my expertise and enthusiasm I feel about development of the Pension funds might show beneficial to the work of this stakeholder group, and in some way bring additional value to the items discussed, from the point of view Croatian Pension Funds.
